Sommario/riassunto	The Companion to John Wyclif contains eight substantial essays covering the central aspects of John Wyclif's life and thought. The volume's authors have drawn on an extensive amount of primary material, as well as the most recent secondary sources, so as to present a comprehensive picture of Wyclif in his times. Topics covered include a detailed life and career of Wyclif, and close analyses of his logic and metaphysics; doctrine of the Trinity and Christology; political views; Christian life and piety; sacraments; the Bible; and an examination of

his medieval opponents. Experts and students alike will profit from these in-depth studies all of which provide a view of Wyclif in his late medieval context. For those not already familiar with Wyclif this volume will serve as an excellent introduction; and those with greater expertise will find fresh appraisals which may, in turn, lead to further research.

Sommario/riassunto

Memories of Belonging is a three-generation oral-history study of the offspring of southern Italians who migrated to Worcester, Massachusetts, in 1913. Supplemented with the interviewees' private documents and working from U.S. and Italian archives, Christa Wirth documents a century of transatlantic migration, assimilation, and later-generation self-identification. Her research reveals how memories of migration, everyday life, and ethnicity are passed down through the generations, altered, and contested while constituting family identities. The fact that not all descendants of Italian migrants moved into the U.S. middle class, combined with their continued use of hyphenated identities, points to a history of lived ethnicity and societal exclusion. Moreover, this book demonstrates the extent of forgetting that is required in order to construct an ethnic identity.
