| Note generali           | Description based upon print version of record.   |
| Nota di bibliografia    | Includes bibliographical references and index.  |
| Nota di contenuto       | CONTENTS; I. INTRODUCTION; 1. A Brief Overview of Social Neuroscience; II. EMOTION PROCESSES; 2. The Importance of Emotion-Social Cognition Interactions for Social Functioning: Insights from the Orbitofrontal Cortex; 3. Neurobiology of Emotion Recognition: Current Evidence for Shared Substrates; 4. Ten Years of Research with the Trier Social Stress Test-Revisited; 5. I Know How You Feel: Social and Emotional Information Processing in the Brain; 6. How Thinking Controls Feeling: A Social Cognitive Neuroscience Approach; III. MOTIVATION PROCESSES<br>7. Asymmetrical Frontal Cortical Activity, Affective Valence, and Motivational Direction 8. Reward: Neural Circuitry for Social Valuation; 9. A Behavioral Model of Implicit Power Motivation Arousal, Reward, and Frustration; 10. Vigilant and Avoidant Responses to Angry Facial Expressions: Dominance and Submission Motives; IV. ATTITUDES AND SOCIAL COGNITION; 11. Attitudes and Evaluation: Toward a Component Process Framework; 12. A Social Cognitive Neuroscience Model of Human Empathy |

13. How Dynamics of Thinking Create Affective and Cognitive Feelings: Psychology and Neuroscience of the Connection Between Fluency, Liking, and Memory 14. The X- and C-Systems: The Neural Basis of Automatic and Controlled Social Cognition; 15. An Evolutionary Perspective on Domain Specificity in Social Intelligence; V. PERSON PERCEPTION, STEREOTYPING, AND PREJUDICE; 16. Mechanisms for the Regulation of Intergroup Responses: Insights from a Social Neuroscience Approach; 17. Social Cognitive Neuroscience of Person Perception: A Selective Review Focused on the Event-Related Brain Potential 18. Social Neuroscience and Social Perception: New Perspectives on Categorization, Prejudice, and Stereotyping VI. INTERPERSONAL RELATIONSHIPS; 19. Neuropeptides and the Protective Effects of Social Bonds; 20. The Quiet Revolution of Existential Neuroscience; 21. Affiliative Responses to Stress: A Social Neuroscience Model; 22. The Social Neuroscience of Relationships: An Examination of Health-Relevant Pathways; Index

---

Sommario/riassunto

This compelling volume provides a broad and accessible overview of the emerging field of social neuroscience. Showcasing an array of cutting-edge research programs, leading investigators present new approaches to the study of how the brain influences social behavior, and vice versa. The contributors discuss the theoretical advantages of taking a social neuroscience perspective and analyze what their findings reveal about core social psychological phenomena. Essential topics include emotion, motivation, attitudes, person perception, stereotyping and prejudice, and
