Burgess -- When Ost meets West : a corpus-study of binomial and other expressions before and during German unification / Bill Dodd -- German be- verbs revisited : using corpus evidence to investigate valency / Piklu Gupta -- A corpus-based study of German accusative/dative propositions / Randall L. Jones -- Translators at play : exploitations of collocational norms in German-English translation / Dorothy Kenny -- "Die schone Geschichte" : a corpus-based analysis of Thomas Mann's Joseph und seine Bruder / Ann Lawson -- Towards a corpus-based comparison of two journals in the field of business and management German / April Mackison -- The ASTCOVEA German Grammar in conText Project / Peter Roe -- An electric corpus of Early New High German / Jonathan West -- Rights and obligations in legal contracts : corpus evidence / Anne Wichmann and Jane Nielsen -- Inflected and periphrastic subjunctive verb forms in German newspaper texts of the 1960s and

1990s / Nic Witton.

Sommario/riassunto	The essays in this volume, written by Germanists from Britain, Ireland, the USA and Australia, illustrate the enormous potential which corpus-based work has for German Studies as a whole and the rich diversity of work currently being undertaken. A detailed introduction explains basic concepts, methods, and applications of corpus-based work.
