policy; 8 Recovery in the long run?; Long-run recovery in theory and in
practice; Wealth effects; Part four; 9 Conventions; Overview; The wealth
holders; The investors; The speculators; Some remarks on cognitive
dissonance; The producers; The consumer; The labourer; Conventional
zones; Perspectives on conventional conduct; A Hume connection?;
Fundamentalism in perspective; Fundamentalism and rational
expectations; A concluding remark; References; Author index
Subject index

Sommario/riassunto

There is discontent with how the textbooks have come to reinterpret Keynes but there is little communication between the most prominent schools of criticism. This book argues that this lack of dialogue is mistaken and damaging. A synthesis is possible as many of the arguments between them can be traced to simple misunderstandings and differences of emphasis.
