

1. Record Nr.	UNINA9910451299803321
Autore	Rabe Barry George <1957->
Titolo	Statehouse and greenhouse [[electronic resource]] : the stealth politics of American climate change policy / / Barry G. Rabe
Pubbl/distr/stampa	Washington, D.C., : Brookings Institution Press, c2004
ISBN	0-8157-9635-8
Descrizione fisica	1 online resource (230 p.)
Disciplina	363.738/7456/0973
Soggetti	Climatic changes - Government policy - United States Climatic changes - Government policy - Economic aspects - United States Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The politics of climate change, state style -- The economics of climate change policy -- The mechanics of climate change policy -- An unlikely front-runner in climate change policy -- Looking ahead to the next generation of climate change policy.

2. Record Nr.	UNINA9910299900903321
Titolo	Progress in Computing, Analytics and Networking : Proceedings of ICCAN 2017 // edited by Prasant Kumar Patnaik, Siddharth Swarup Rautaray, Himansu Das, Janmenjoy Nayak
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2018
ISBN	981-10-7871-8
Edizione	[1st ed. 2018.]
Descrizione fisica	1 online resource (826 pages)
Collana	Advances in Intelligent Systems and Computing, , 2194-5365 ; ; 710
Disciplina	004.6
Soggetti	Computational intelligence Signal processing Telecommunication Quantitative research Computational Intelligence Signal, Speech and Image Processing Communications Engineering, Networks Data Analysis and Big Data
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Preface -- Organizing Committee -- About the Editors -- Table of Contents -- 79 Papers -- Author Index.
Sommario/riassunto	The book focuses to foster new and original research ideas and results in three broad areas: computing, analytics, and networking with its prospective applications in the various interdisciplinary domains of engineering. This is an exciting and emerging interdisciplinary area in which a wide range of theory and methodologies are being investigated and developed to tackle complex and challenging real world problems. It also provides insights into the International Conference on Computing Analytics and Networking (ICCAN 2017) which is a premier international open forum for scientists, researchers and technocrats in academia as well as in industries from different parts of the world to present, interact, and exchange the state of art of concepts, prototypes, innovative research ideas in several diversified fields. The book includes invited keynote papers and paper presentations from

both academia and industry to initiate and ignite our young minds in the meadow of momentous research and thereby enrich their existing knowledge. The book aims at postgraduate students and researchers working in the discipline of Computer Science & Engineering. It will be also useful for the researchers working in the domain of electronics as it contains some hardware technologies and forthcoming communication technologies.
