(Dis) continuity of Care: Explicating the Ruling Relations of Home Support -- Conclusion -- References -- Contributors -- Index

Sommario/riassunto

People at Work is noted sociologist Marjorie L. DeVault's groundbreaking collection of original essays on the complexities of the modern-day workplace. By focusing on the lived experiences of the worker, not as an automaton on an assembly line, but as an embodied human of flesh and bone, these essays offer important insight on the realities of the workplace, and their effects on life at home and in communities. With contributions from some of today's top scholars, each essay is a detailed case study of a different aspect of the working world. Compelling, lively, and sometimes chilling, the contributors address issues from disability rights to immigrant labor, welfare reforms to budget cuts, competition to personal motivations. Each one valuable on its own, the essays in People at Work combine to illuminate the hurdles that workers of all backgrounds struggle with and, more broadly, the impact of change on workers' lives in the new, increasingly global, economy.

Labor Supply and Other Time Uses -- Macro-Level Implications for Empirical Analyses of Allocation and Valuation of Time: Income, Wage and Sex Ratio Effects -- Implications for Labor Supply with Multiple Markets for Work-In-Household -- Revisiting Labor Supply Effects of Sex Ratios, Income, Wage. Effects of Marriage-Related Laws -- Labor Supply, Household Production and Common Law

Marriage Legislation (with Victoria Vernon) -- Labor Supply and Marriage Market Conditions: A Simple Graphic Analysis When household Goods are Publicly Consumed -- Household Production and Racial Intermarriage (with J. Ignacio Gimenez-Nadal and J. Alberto Molina) -- Part C. Consumption and Savings -- A Consumer Theory with Competitive Markets for Work-in-Household -- A Theory of Savings, In-Marriage Transfers, and Work-in-Household.

Sommario/riassunto

While this book contains numerous facts and empirical findings and touches on policy issues, its main contribution to the existing literature lies in the theoretical perspective it offers. The core of this book is a general equilibrium theory of labor and marriage presented in Chapter 2, which provides the conceptual framework for the rest of the chapters. Two major implications of the theory are sex ratio effects and compensating differentials in marriage. The book demonstrates how a few core concepts, linked via economic analysis, help explain a multitude of findings based on statistical analyses of data from a wide variety of cultures. It is hoped that readers of this book will improve their understanding of how marriage works to help us design better economic and social policies as well as help people live better and happier lives, making the book of interest to not only economists but sociologists and anthropologists as well.
