

1. Record Nr.	UNINA9910451396803321
Titolo	Natural enemies of terrestrial molluscs [[electronic resource] /] / edited by G.M. Barker
Pubbl/distr/stampa	Wallingford, Oxfordshire, UK ; ; Cambridge, MA, USA, : CABI Pub., c2004
ISBN	1-280-90820-3 9786610908202 0-85199-061-4
Descrizione fisica	1 online resource (654 p.)
Altri autori (Persone)	BarkerG. M
Disciplina	632/.6438
Soggetti	Mollusks - Biological control Agricultural pests - Biological control Biological pest control agents Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	NATURAL ENEMIES OF TERRESTRIAL MOLLUSCS; Contents; Contributors; Preface; 1 Avian and Mammalian Predators of Terrestrial Gastropods; 2 Coleoptera (Carabidae, Staphylinidae, Lampyridae, Drilidae and Silphidae) as Predators of Terrestrial Gastropods; 3 Diptera as Predators and Parasitoids of Terrestrial Gastropods, with Emphasis on Phoridae, Calliphoridae, Sarcophagidae, Muscidae and Fanniidae; 4 Overview of the Biology of Marsh Flies (Diptera: Sciomyzidae), with Special Reference to Predators and Parasitoids of Terrestrial Gastropods 5 Terrestrial Planarians (Platyhelminthes: Tricladida: Terricola) Predaceous on Terrestrial Gastropods 6 Predatory Gastropods as Natural Enemies of Terrestrial Gastropods and Other Invertebrates; 7 Millipedes (Diplopoda) and Centipedes (Chilopoda) (Myriapoda) as Predators of Terrestrial Gastropods; 8 Reptilian Predators of Terrestrial Gastropods; 9 Heteropteran Predation on Terrestrial Gastropods; 10 Gastropod Predation in Spiders (Araneae); 11 Mites (Acari) Parasitic and Predaceous on Terrestrial Gastropods; 12 Nematodes (Nematoda) Parasitic in Terrestrial Gastropods

13 Ciliophoran (Ciliophora) Parasites of Terrestrial Gastropods
14 Microsporidia (Microspora) Parasitic in Terrestrial Gastropods;
15 Bacterial and Non-microbial Diseases in Terrestrial Gastropods; Index

Sommario/riassunto

Terrestrial molluscs have become increasingly important as crop pests in agriculture and as vectors of helminth parasites in humans and domestic livestock. This text draws together the available information on the diversity of organisms that constitute the natural enemies of terrestrial molluscs.
