Sommario/riassunto	This book brings together research on the semantics and pragmatics of

adjectives and adverbs. It integrates lexical and compositional semantics and provides a full account of the structural and interpretive properties of adjectives and adverbs. It will interest students in linguistics and philosophy at graduate level and above. - ;In this volume leading researchers present new work on the semantics and pragmatics of adjectives and adverbs, and their interfaces with syntax. Its concerns include the semantics of gradability; the relationship between adjectival scales and verbal aspect; the relat
