Sommario/riassunto	This book critically examines global economic institutions. It presents an accessible fluid history of globalization and explains how global public goods should be defined and how global economic institutions work. It also looks at the effect that major organizations - including the

WTO, IMF and UNEP - have on areas such as finance, the environment and transport. The beauty of Global Economic Institutions lies in its unique approach and the author's ability to explain complicated economic and political systems and terms with commendable clarity and style. Students and academics intere

Making (a) difference: building the political machine; 5. The politics of irrelevance; 6. Disaggregating the secret ballot: electioneering and the politics of self-knowledge; 7. Counting on failure: Polling Day and its aftermath; 8. Return of the lesser-spotted Tory; Afterword; Bibliography; Index.
Sommario/riassunto	This highly readable book is a unique, ethnographic study of devolution and Scottish politics as well as Party political activism more generally. It explores how Conservative Party activists who had opposed devolution

and the movement for a Scottish Parliament during the 1990's attempted to mobilise politically following their annihilation at the 1997 General Election.
