Sommario/riassunto

First published in 1952, W.R.D. Fairbairn's Psychoanalytic Studies of the Personality re-oriented psychoanalysis by centering human development on the infant's innate need for relationships, describing the process of splitting and the internal dynamic relationship between ego and object. His elegant theory is still a vital framework of psychoanalytic theory and practice, infant research, group relations and family therapy. This classic collection of papers, available for the first time in paperback, has a new introduction by David Scharff and Elinor Fairbairn Birtles which sets Fai
