Sommario/riassunto	This edited volume captures an exciting new trend in research on intergroup attitudes and relations, which concerns how individuals make judgments, and interact with individuals from different group categories, broadly defined in terms of gender, race, age, culture, religion, sexual orientation, and body type. This new approach is an integrative perspective, one which draws on theory and research in the areas of developmental and social psychology. Throughout human

history, intergroup conflict has often served as the basis for societal conflict, strife, and tension. Over the past several decad
