Uneven Economic Crisis, Industrial Restructuring, and the Politics of Development in a Post-Nationalist Era; 7. Conclusion: Thailand at the Margins; Bibliography; Index
Sommario/riassunto	Jim Glassman addresses the role of the state in the industrial

transformation of what was, before the economic crisis of 1997-98, one of Southeast Asia's fastest-growing economies. He argues that the Thai state has been both proactive and interventionist in encouraging industrial transformation.
