	Sommario/riassunto	This book provides the first empirical study of the history and spread of mediopassive constructions. It investigates the productivity of the pattern, the spread of the construction in Modern English, and looks

into text type-specific preferences for the construction. On a more abstract level, it combines the corpus-based description of mediopassive constructions with cognitive linguistic models, drawing largely on notions such as 'prototype', 'family resemblances', 'patch' and 'construction'. The theoretical modelling is largely based on data from real texts. These come from publicly available machine-readable corpora, text-databases and a single-register 'corpus' (American mail-order catalogues). The study combines the corpus-based approach with cognitive theories and is therefore of interest to both empirical and theoretical linguists.

Nota di contenuto	Contents; Contributors; Acknowledgments; Foreword: Putting Elders and the Criminal Justice System into Historical Perspective; Introduction; PART I: Elders and Crime; PART II: Elders and the Criminal Court; PART III: Elders and Imprisonment; PART IV: An International Perspective; PART V: Conclusions; Index
Sommario/riassunto	This book provides a comprehensive analysis of interactions between older people and the criminal justice system. The editors present current research on elders in a multitude of roles, from victim and offender to attorney, defendant, witness, juror, and prisoner. Of particular interest are chapters on the psychological and medical conditions of elder prisoners, and issue around selective decarceration. Each contributor documents empirical data and identifies social, policy, and ethical implications, where applicable. Recommended for gerontologists, sociologists, social workers, and profession

Sommario/riassunto   In this comprehensive aviation manual, Raoul Castro provides a source of invaluable corporate aviation management information. He begins by giving an overview of corporate aviation from its inception, then focuses on the management principles and functions that specifically target corporate aviation. Through the utilization of these sound management principles, Castro facilitates the acceptance of corporate aircraft as indispensable tools of industry. As Castro notes, few companies know how to use corporate aircraft to maximum advantage. Drawing on his expertise and ex
