Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	; Introduction : toward fundamental research in the humanities -- A politics of thought : Gerard Granel's De l'universite -- Acts of engagement -- The claim of language : a case for the humanities.
Sommario/riassunto	In The Claim of Language, Christopher Fynsk clearly and eloquently defends and rearticulates the humanities from a perspective that moves beyond the political and philosophical reductions of identity politics. Leaving aside polemics, Fynsk asserts that discourses in the humanities will find real ethical-political purchase when they engage with the material events in art, literature, and social life that call for humanistic reflection.
