| Sommario/riassunto | Joel Olson contends that, given the history of slavery and segregation in the United States, American citizenship is a form of racial privilege in which whites are equal to each other but superior to everyone else. To break this pattern, Olson suggests an "abolitionist-democratic" political theory that makes the fight against racial discrimination a prerequisite for expanding democratic participation. |

Sommario/riassunto

From the acclaimed author of *Unfinished Business*, a story of crisis and change that can help us find renewed honesty and purpose in our personal and political lives. America and much of the world are deeply divided over identity, equality, and history. Renewal is Anne-Marie Slaughter's candid and deeply personal account of how her own odyssey opened the door to an important new understanding of how we as individuals, organizations, and nations can move backward and forward at the same time, facing the past and embracing a new future. Weaving together personal stories and reflections with insights from the latest research in the social sciences, Slaughter recounts a difficult time of selfexamination and growth in the wake of a crisis that changed the way she lives, leads, and learns. She connects her experience to our national crisis of identity and values as the country looks into a four-hundred-year-old mirror and tries to confront and accept its full reflection. The promise of the Declaration of Independence has been hollow for so many for so long. That reckoning is the necessary first step toward renewal. The lessons here are not just for America. Slaughter shows how renewal is possible for any individual or institution that is willing to see themselves with new eyes and embrace radical honesty, risk, resilience, interdependence, grace, and vision. Part personal journey, part manifesto, *Renewal* offers hope tempered by honesty and is essential reading for citizens, leaders, and change makers of tomorrow.
