Sommario/riassunto	Among the more sensational espionage cases of the Cold War were those of Moscow's three British spies-Kim Philby, Donald Maclean, and Guy Burgess. In this riveting book, S. J. Hamrick draws on documentary evidence concealed for almost half a century in reconstructing the complex series of 1947-1951 events that led British intelligence to identify all three as Soviet agents. Basing his argument primarily on the Venona archive of broken Soviet codes released in 1995-1996 as well as on complementary Moscow and London sources, Hamrick refutes the myth of MI5's identification of Maclean as a Soviet agent in the spring of 1951. British intelligence knew far earlier that Maclean was Moscow's agent and concealed that knowledge in a 1949-1951 counterespionage

operation that deceived Philby and Burgess. Hamrick also introduces compelling evidence of a 1949-1950 British disinformation initiative using Philby to mislead Moscow on Anglo-American retaliatory military capability in the event of Soviet aggression in Western Europe. Engagingly written and impressively documented, *Deceiving the Deceivers* breaks new ground in reinterpreting the final espionage years of three infamous spies and in clarifying fifty years of conjecture, confusion, and error in Anglo-American intelligence history.
