Rethinking Empathy in Nursing Education: Shifting to a Developmental View; CH18. Development of Middle Range Theories Based on King's Conceptual System: A Commentary on Progress and Future Directions; Index

Sommario/riassunto

Presents the "state of the science" based on King's conceptual system and Theory of Goal Attainment. This work provides an understanding of practicing nurses as to how King's conceptual system and middle range theories can be applied to clinical practice questions. It is useful for students and graduates of nursing education courses.
