ISBN	981-4401-47-1
Descrizione fisica	1 online resource (320 p.)
Altri autori (Persone)	PeimaniHooman
Disciplina	333.79098 333.790998
Soggetti	Energy security - Arctic regions Geopolitics - Arctic regions Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section 1. Is the Arctic melting? -- section 2. What are the stakes for the littoral states? -- section 3. What are the interests of the nonregional large economies?.
Sommario/riassunto	This book sheds light on how global warming has caused the ongoing environmental disaster in the Arctic, namely its melting. This development, if left unabated, will have a major negative environmental impact, not only on the Arctic itself, but on the entire planet, including the worsening of global warming and rising sea levels. The latter is a major threat to all island countries and all countries having coastlines with open seas with major environmental, social, economic, political and military/security implications. The Arctic melting is bringing about challenges while opening doors for
