Autore	Beerbohm Eric Anthony <1975->
Titolo	In our name [[electronic resource]] : the ethics of democracy // Eric Beerbohm
Pubbl/distr/stampa	Princeton, N.J., : Princeton University Press, 2012
ISBN	1-280-49412-3 9786613589354 1-4008-4238-7
Edizione	[Course Book]
Descrizione fisica	1 online resource (367 p.)
Disciplina	172
Soggetti	Democracy - Moral and ethical aspects Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preface -- Introduction -- How to value democracy -- Paper stones, the ethics of participation -- Philosophers-citizens -- Superdeliberators -- What is it like to be a citizen? -- Democracy's ethics of belief -- The division of democratic labor -- Representing principles -- Democratic complicity -- Not in my name, macrodemocratic design.
Sommario/riassunto	When a government in a democracy acts in our name, are we, as citizens, responsible for those acts? What if the government commits a moral crime? The protestor's slogan--"Not in our name!"--testifies to the need to separate ourselves from the wrongs of our leaders. Yet the idea that individual citizens might bear a special responsibility for political wrongdoing is deeply puzzling for ordinary morality and leading theories of democracy. In Our Name explains how citizens may be morally exposed to the failures of their representatives and state institutions, and how complicity is the professional hazard of democratic citizenship. Confronting the ethical challenges that citizens are faced with in a self-governing democracy, Eric Beerbohm proposes institutional remedies for dealing with them. Beerbohm questions prevailing theories of democracy for failing to account for our dual position as both citizens and subjects. Showing that the obligation to

participate in the democratic process is even greater when we risk serving as accomplices to wrongdoing, Beerbohm argues for a distinctive division of labor between citizens and their representatives that charges lawmakers with the responsibility of incorporating their constituents' moral principles into their reasoning about policy. Grappling with the practical issues of democratic decision making, In Our Name engages with political science, law, and psychology to envision mechanisms for citizens seeking to avoid democratic complicity.

2. Record Nr.	UNINA9910714875003321
Autore	Cho Sung Yoon <1928-2017, >
Titolo	Japan : A Comparative View // Albert M. Craig
Pubbl/distr/stampa	Princeton, NJ : , : Princeton University Press, , [2015] ©2015

Index

Sommario/riassunto

Among the leading specialists on Japan, the authors-both Japanese and Western-represent a range of disciplines from economics, history, and political science, to sociology, anthropology, psychiatry, and literary criticism. Some of the essays draw comparisons with China or Korea, some with England, Europe, or America, and some with countries of the Third World. By showing us how the Japanese experience relates to that of other contexts, the authors provide us with important insights into Japan as well as into other societies undergoing a modern transformation. Originally published in 1979. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
