

1. Record Nr.	UNINA9910451866403321
Titolo	Dark medicine [[electronic resource]] : rationalizing unethical medical research / / edited by William R. LaFleur, Gernot Bohme, and Susumu Shimazono
Pubbl/distr/stampa	Bloomington, : Indiana University Press, c2007
ISBN	1-282-07829-1 9786612078293 0-253-11680-5
Descrizione fisica	1 online resource (282 p.)
Collana	Bioethics and the humanities
Altri autori (Persone)	LaFleurWilliam R BohmeGernot ShimazonoSusumu <1948->
Disciplina	174.2/8
Soggetti	Human experimentation in medicine - Moral and ethical aspects Medicine - Research - Moral and ethical aspects Medical ethics - History Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Rationalizing unethical medical research: taking seriously the case of Viktor von Weizsacker / Gernot Bohme -- Medical research, morality, and history: the German journal Ethik and the limits of human experimentation / Andreas Frewer -- Experimentation on humans and informed consent: how we arrived where we are / Rolf Winau -- The silence of the scholars / Benno Muller-Hill -- The ethics of evil: the challenge and the lessons of Nazi medical experiments / Arthur L. Caplan -- Unit 731 and the human skulls discovered in 1989: physicians carrying out organized crimes / Kei-ichi Tsuneishi -- Biohazard: unit 731 in postwar Japanese politics of national "forgetfulness" / Frederick R. Dickinson -- Biological weapons: the United States and the Korean War / G. Cameron Hurst III -- Experimental injury: wound ballistics and aviation medicine in mid-century America / Susan Lindee -- Stumbling toward bioethics: human experiments policy and the early Cold War / Jonathan D. Moreno --

Toward an ethics of iatrogenesis / Renee C. Fox -- Strategies for survival versus accepting impermanence: rationalizing brain death and organ transplantation today / Tetsuo Yamaori -- The age of a "revolutionized human body" and the right to die / Yoshihiko Komatsu -- Why we must be prudent in research using human embryos: differing views of human dignity / Susumu Shimazono -- Eugenics, reproductive technologies, and the feminist dilemma in Japan / Miho Ogino -- Refusing utopia's bait: research, rationalizations, and Hans Jonas / William R. LaFleur.

Sommario/riassunto

The trial of the ""German doctors"" exposed atrocities of Nazi medical science and led to the Nuremberg Code governing human experimentation. In Japan, Unit 731 carried out hideous experiments on captured Chinese and downed American pilots. In the United States, stories linger of biological experimentation during the Korean War. This collection of essays looks at the dark medical research conducted during and after World War II. Contributors describe this research, how it was brought to light, and the
