Descrizione fisica	1 online resource (206 p.)
Disciplina	956.7044/3
Soggetti	Iraq War, 2003-2011 - Causes Iraq War, 2003-2011 - Moral and ethical aspects - United States Petroleum industry and trade - Political aspects - United States Petroleum industry and trade - Political aspects - Iraq Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [159]-185) and index.
Nota di contenuto	Fm; chap-01; chap-02; chap-03; chap-04; chap-05; conclu; Appendix; Notes; Index; ATA
Sommario/riassunto	Argues that energy concerns are the real reasons for our wars in the Middle East and details how a deterioration in our relations with the region basically compelled the use of force.

Sommario/riassunto

Cell Migration matches nearly all research areas in cell and developmental biology, genetics, and biomedicine. The field shows radical progress powered by the combination of new genomic tools, cell labeling techniques and the incorporation of new model systems. This is the first book to comprehensively cover cell migration from the identification of molecular mechanisms to the understanding of certain pathological disorders and cancer development.
