(Kris) van Koppen -- Governing climate risk : a study of international rivers / Itay Fischhendler -- Environmental governance of global food flows : the case of labeling strategies / Peter Oosterveer -- Greening transnational buildings : between global flows and local places / Luciana M.S. Presas and Arthur P.J. Mol -- Environment, mobility, and the acceleration of time : a sociological analysis of transport flows in modern life / Mette

Jensen -- Epilogue : Environmental flows and twenty-first-century environmental social sciences / Frederick H. Buttel, Gert Spaargaren, and Arthur P.J. Mol.

Sommario/riassunto

Lays the foundations for a new conceptualization of global environmental governance that draws on the flow perspective found in recent work in sociology.
