Nota di contenuto	Racial science -- The origins of racist eugenics in imperial Germany -- The spread of racist eugenics in Weimar -- Making the ancestral proof in Nazi Germany -- The Reich Genealogical Authority and its tasks -- The Reich Genealogical Authority and the ancestral proof -- Three beneficiaries of the ancestral proof -- Other means of generating acceptance of racism -- Racial scientific ideology and the Holocaust.
Sommario/riassunto	How could Germans, inhabitants of the most scientifically advanced nation in the world in the early 20th century, have espoused the inherently unscientific racist doctrines put forward by the Nazi leadership? Eric Ehrenreich traces the widespread acceptance of Nazi policies requiring German individuals to prove their Aryan ancestry to the popularity of ideas about eugenics and racial science that were advanced in the late Imperial and Weimar periods by practitioners of genealogy and eugenics. After the
