Sommario/riassunto	This new volume in the Short Oxford History of Europe series traces the history of Europe in the central middle ages (c.950-1320), an age of far-reaching change for the continent. Seven expert contributors consider the history of this period from a variety of perspectives, including political, social, economic, religious and intellectual history. - ;The period from the late tenth to the early fourteenth centuries was one of the most dynamic in European history. Latin Christendom found a new confidence which has left its mark upon the landscape in the form of the great cathedrals and castles, w
