Sommario/riassunto	This is a new edition of the classic book on risk assessment with violent individuals, including coverage across domains of violence. The editor is one of the top names in the world of violence and she and other chapter authors have been personally responsible for much of the development in the field of risk assessment in such diverse fields as psychology, forensics (medicine, law, and psychology), social work, and nursing. User-friendly tables and figures outline issues and solutions. This edition will also provide an important revision of Campbell's ground-breaking intimate partner homicide
