Nota di bibliografia	Includes bibliographical references (p. 248-288) and index.
Nota di contenuto	Problems of governance / Ronald D. Brunner -- Water management and the Upper Clark Fork Steering Committee / Elizabeth A. Olson -- Wolf recovery in the northern Rockies / Roberta A. Klein -- Bison management in greater Yellowstone / Christina M. Cromley -- Forest policy and the Quincy Library Group / Christine H. Colburn -- Harvesting experience / Ronald D. Brunner and Christine H. Colburn.
Sommario/riassunto	Over the past century, solutions to natural resources policy issues have become increasingly complex. Multiple government agencies with overlapping jurisdictions and differing mandates as well as multiple interest groups have contributed to gridlock, frequently preventing solutions in the common interest. Community-based responses to natural resource problems in the American West have demonstrated the potential of local initiatives both for finding common ground on divisive issues and for advancing the common interest. The first chapter of this enlightening book diagnoses contemporary problems of governance in natural resources policy and in the United States generally, then introduces community-based initiatives as responses to those problems. The next chapters examine the range of successes and failures of initiatives in water management in the Upper Clark Fork

River in Montana; wolf recovery in the northern Rockies; bison management in greater Yellowstone; and forest policy in northern California. The concluding chapter considers how to harvest experience from these and other cases, offering practical suggestions for diverse participants in community-based initiatives and their supporters, agencies and interest groups, and researchers and educators.

2. Record Nr.	UNINA9910790967303321
Autore	Schaller Susan
Titolo	A man without words / / Susan Schaller ; foreword by Oliver Sacks

Sommario/riassunto	For more than a quarter of a century, Ildefonso, a Mexican Indian, lived in total isolation, set apart from the rest of the world. He wasn't a political prisoner or a social recluse, he was simply born deaf and had never been taught even the most basic language. Susan Schaller, then a twenty-four-year-old graduate student, encountered him in a class for the deaf where she had been sent as an interpreter and where he sat

isolated, since he knew no sign language. She found him obviously intelligent and sharply observant but unable to communicate, and she felt compelled to bring him to a comprehension of words. The book vividly conveys the challenge, the frustrations, and the exhilaration of opening the mind of a congenitally deaf person to the concept of language. This second edition includes a new chapter and afterword.
