

1. Record Nr.	UNINA9910452036603321
Autore	Robinson Phillip T
Titolo	Life at the zoo [[electronic resource] ] : behind the scenes with the animal doctors // Phillip T. Robinson
Pubbl/distr/stampa	New York, : Columbia University Press, c2004
ISBN	0-231-50719-4
Descrizione fisica	1 online resource (314 p.)
Disciplina	590.73
Soggetti	Zoos Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 279-283) and index.
Nota di contenuto	Front matter -- CONTENTS -- PREFACE -- INTRODUCTION -- 1. Intern at the Zoo: An Eclectic Orientation -- 2. Too Early for the Autopsy: Fitting in at the Zoo -- 3. Growing Pains: Educating the Menagerie Makers -- 4. The Keepers: Nurturing the Health of Animals -- 5. Zoo Babies: Promoting Motherhood -- 6. Exhibit Making: Creating Zoo Ecosystems -- 7. Creature Comfort: The Power of Microenvironments -- 8. What's This Thing? Searching for the Normal -- 9. Holding the Tiger: Zoos Say Yes to Drugs -- 10. Finding the Sick in the Zoo: Seeking Out Disease and Discomfort -- 11. Feeding the Ark: The Nutritional Wisdom of Animals -- 12. Getting Closer to Animals: Judas Goats and Alpaca Coats -- 13. So, You Work at the Zoo? Employees, Visitors, and Fence Jumpers -- 14. Animal Cases and Chases: And Some Things Better Kept to Myself -- 15. Zoo Regulars: Coworkers Without Titles -- 16. Ethical Captivity: Animal Well-Being in Zoos -- 17. What a Zoo Should Be, And Ought Not Be -- Annotated Bibliography of Selected Works on Zoos -- Index -- Photo Credits and Attributions
Sommario/riassunto	Please Do Not Annoy, torment, pester, plague, molest, worry, badger, harry, persecute, irk, bullyrag, vex, disquiet, grate, beset, bother, tease, nettle, tantalize or ruffle the Animals.-sign at zoo Since the early days of traveling menageries and staged attractions that included animal acts, balloon ascents, and pyrotechnic displays, zoos have come a long way. The Ménagerie du Jardin des Plantes in Paris, founded in 1793, didn't offer its great apes lessons in parenting or perform dental

surgery on leopards. Certainly the introduction of veterinary care in the nineteenth century-and its gradual integration into the twentieth-has had much to do with this. Today, we expect more of zoos as animal welfare concerns have escalated along with steady advances in science, medicine, and technology. Life at the Zoo is an eminent zoo veterinarian's personal account of the challenges presented by the evolution of zoos and the expectations of their visitors. Based on fifteen years of work at the world-famous San Diego Zoo, this charming book reveals the hazards and rewards of running a modern zoo. Zoos exist outside of the "natural" order in which the worlds of humans and myriad exotic animals would rarely, if ever, collide. But this unlikely encounter is precisely why today's zoos remain the sites of much humor, confusion, and, occasionally, danger. This book abounds with insights on wildlife (foulmouthed parrots, gum-chewing chimps, stinky flamingoes), human behavior (the fierce competition for zookeeper jobs, the well-worn shtick of tour guides), and the casualties-both animal and human-of ignorance and carelessness. Phillip Robinson shows how animal exhibits are developed and how illnesses are detected and describes the perils of working around dangerous creatures. From escaping the affections of a leopard that thought he was a lap cat to training a gorilla to hold her newborn baby gently (instead of scrubbing the floor with it) and from operating on an anesthetized elephant ("I had the insecure sensation of working under a large dump truck with a wobbly support jack") to figuring out why a zoo's polar bears were turning green in color, Life at the Zoo tells irresistible stories about zoo animals and zoo people.
