Autore	Merrill Heather
Titolo	An alliance of women [[electronic resource]] : immigration and the politics of race / / Heather Merrill
Pubbl/distr/stampa	Minneapolis, : University of Minnesota Press, c2006
ISBN	0-8166-9484-2
Descrizione fisica	1 online resource (290 p.)
Disciplina	305.420945
Soggetti	Feminism - Italy Women, Black - Italy - Social conditions Women immigrants - Italy - Turin Feminism - International cooperation Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 219-236) and index.
Nota di contenuto	Introduction: immigration and the spatial politics of scale -- The spatial politics of race and gender -- Alma Mater: the architecture of an interethnic social politics -- Limiting the laboring: industrial restructuring and the new migration -- Extracomunitari in post-Fordist Turin -- Race, politics, and protest in the Casbah, or San Salvario, Africa -- Turin feminism: from workerism to interethnic gender alliance -- Making Alma Mater: gender, race, and other differences -- Conclusion: speaking subjects -- Epilogue: gender and globalization at the G8 in Genoa, July 2001.
Sommario/riassunto	Heather Merrill investigates how migrants and Northern Italians struggle over meanings and negotiate social and cultural identities. Using rich ethnographic material, Merrill traces the emergence of Alma MaterNan anti-racist organization formed to address problems encountered by migrant women. Through this analysis, she reveals the dynamics of an alliance consisting of women from many countries of origin and religious and class backgrounds.

Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Principles of psychosomatic assessment / Fava, G.A., Sonino, N., Wise, T.N. -- The psychosomatic interview / Wise, T.N., Dellemonache, P.M.; Bachawati, M.M. -- Evaluating childhood adversity / Thabrew, H., de Sylva, S., Romans, S.E. -- Evaluating life events and chronic stressors in relation to health : stressors and health in clinical work / Theorell, T. -- Assessment of lifestyle in relation to health / Tomba, E. -- Assessment of sexual function in the medically ill : psychosomatic approach to sexual functioning / Balon, R. -- Psychological factors in medical disorders assessed with the diagnostic criteria for psychosomatic research / Porcelli, P., Todarello, O. -- Mood and anxiety in the medically ill / Bech, P. -- Assessment of personality in psychosomatic medicine : current concepts -- Cosci, F. -- Illness behavior / Sirri, L., Grandi, S. -- Assessment of psychological well-being in psychosomatic medicine -- Rafanelli, C., Ruini, C. -- Family assessment in the medical setting / Keitner, G.I. -- Relational ethics and psychosomatic assessment / Barbosa, A.
Sommario/riassunto	Patient reported outcomes have become more and more important in

clinical practice and research. Evaluating subjective perceptions of patients has become mandatory for a full assessment of treatment responses. In this context, clinimetrics, the science of clinical measurements, provides unprecedented opportunities for psychosomatic assessment. This volume illustrates how this approach can be translated into everyday practice complementing and improving the medical interview. The most sensitive and reliable clinical methods are presented for evaluating specific psychosocial aspects of disease, i. e. childhood adversities, life events and chronic stress, lifestyle, sexual function, subclinical and affective disturbances, personality, illness behavior, well-being and family dynamics. Each chapter provides practical illustrations as to how crucial information can be obtained with specific methods individualized according to the patients' needs.

Nota di contenuto	<p>Advanced Combustion Techniques for Utilization of Alternative Fuels for Vehicular Applications -- Development of Methanol Fuelled Two Wheeler -- Role of Diesel Particulate Filter to Meet Bharat Stage -VI Emission Norms in India -- Design and Development of UAV Engine: Future of engine -- Gasoline Compression Ignition: The Future Engine Technology -- Small Carburetted Vehicles for M15 Adaption towards Lower Fuel Economy and Cleaner Tailpipe Emission- Indian Context -- Ozone Seeding Effect on Spark Assisted Compression Ignition (SACI) -- An Efficient technology and its advancements: Gasoline Direct Injection system -- Solar-based Electric Vehicle Charging Stations in India: A Prospective -- Advanced Combustion Techniques for Utilization of Alternative Fuels for Vehicular Applications -- Methanol Fuelled Reactivity Controlled Compression Ignition Engine.</p>
Sommario/riassunto	<p>This book discusses the recent advances in combustion strategies and engine technologies, with specific reference to the automotive sector. Chapters discuss the advanced combustion technologies, such as gasoline direct ignition (GDI), spark assisted compression ignition (SACI), gasoline compression ignition (GCI), etc., which are the future of the automotive sector. Emphasis is given to technologies which have the potential for utilization of alternative fuels as well as emission reduction. One special section includes a few chapters for methanol utilization in two-wheelers and four wheelers. The book will serve as a valuable resource for academic researchers and professional automotive engineers alike.</p>
