

1. Record Nr.	UNINA9910452149303321
Autore	McKinnell Robert Gilmore
Titolo	Cloning of frogs, mice, and other animals [[electronic resource]] / Robert Gilmore McKinnell
Pubbl/distr/stampa	Minneapolis, : University of Minnesota Press, c1985
ISBN	0-8166-5532-4 1-4356-0613-2
Edizione	[Rev. ed.]
Descrizione fisica	1 online resource (140 p.)
Disciplina	596/.016
Soggetti	Cloning Cell nuclei - Transplantation Embryology, Experimental Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previous ed. published as: Cloning : a biologist reports. 1979.
Nota di bibliografia	Includes bibliography and index.
Nota di contenuto	Preface; Contents; 1 Why a Discourse on Cloning? Of E. coli, Quaking Aspens, and Frogs. Humans Too?; 2 "'A Fantastical Experiment"' ; 3 To Clone a Frog; 4 Cancer, Aging, and Other Challenges; 5 Cloning Mice, Large Domestic Animals, and Humans; 6 Epilogue: An Essay on Human Cloning; References; Glossary; A; B; C; D; E; F; G; H; I; K; L; M; N; O; P; R; S; T; X; Z; Index; A; B; C; D; E; F; G; H; I; K; L; M; N; O; P; R; S; T; U; V; W; X; Z
Sommario/riassunto	Cloning of Frogs, Mice, and Other Animals was first published as Cloning: A Biologist Reports in 1979 and was reissued under the present title in 1985. When cell biologist Robert McKinnell first wrote his layman's guide to cloning in 1979, no creature higher than a frog had been successfully cloned. In the years since then, scientific advances have made mammalian clones a reality -- cloned mice have been reported from laboratories using two different techniques. In this revised edition of Cloning: A Biologist Reports, McKinnell explains the process of mammalian cloning and discusses its import
