

1. Record Nr.	UNINA9910452281503321
Autore	Stuggins Gary
Titolo	Energy efficiency [[electronic resource] ] : lessons learned from success stories // Gary Stuggins, Alexander Sharabaroff, Yadviga Semikolenova
Pubbl/distr/stampa	Washington, D.C., : World Bank, 2013
ISBN	0-8213-9804-0 1-299-16031-X
Descrizione fisica	1 online resource (85 p.)
Collana	Eastern Europe and Central Asia Reports Eastern Europe and central Asia reports
Altri autori (Persone)	SharabaroffAlexander SemikolenovaYadviga
Disciplina	333.7917
Soggetti	Energy consumption - Europe Energy consumption - Former Soviet republics Energy policy - Europe Energy policy - Former Soviet republics Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Acknowledgments -- Abbreviations -- Executive summary -- Top lessons and findings -- Interesting findings for future consideration -- Why is energy efficiency important? -- Low, medium, and high energy intensity country characteristics -- Moving from high to medium energy intensity -- Moving from medium to low energy intensity -- The way forward -- Annex 1: Summary of lessons learned from the country case studies -- Annex 2: The energy efficiency ladder -- References.
Sommario/riassunto	Energy efficiency is an important factor in an economy, since it helps meet energy needs, decrease costs, and lower environmental impacts. A review of the evolution of energy intensity in European and Former Soviet Union countries indicates a positive trend: high-energy-intensity countries have now reached the level of medium-energy-intensity economies 15 years earlier, and in the same period, medium-energy-intensity ones had similarly evolved to levels of low-energy-intensity. At the same time, the fast transitioning economies of Central Europe converged towards similar levels of energy inten
