Sommario/riassunto

Does the scientific process belong in pastoral counseling? Professional Chaplaincy and Clinical Pastoral Education Should Become More Scientific: Yes and No examines the widespread ambivalence among pastoral caregivers and educators over the growing inclusion of science in pastoral care and counseling methodologies. Twenty-three seasoned professionals in the field give candid and sometimes emotional accounts of their interest in and reservations about the role scientific research plays in their profession. Some authors look at the issue from a historical perspective; others voice addit
