Sommario/riassunto	The age of nationalism in the eastern Mediterranean world began with the Greek revolt against Turkish rule in the 1820's. This book explores

the power struggles which followed, focusing in particular on Britain's role in the expansion of Greece as an independent nation-state. The book traces events from these nineteenth-century origins right up to the travails of British colonial rule in Cyprus and its ending in 1960. - ; The Greek revolt against Turkish rule in the 1820's, and the ensuing establishment of an independent Hellenic Kingdom, was the principal precursor of an age of nationalism
