Sommario/riassunto

For half a century the New Orleans Academy of Ophthalmology has been dedicated to providing an annual in-depth evaluation of an important clinical topic in ophthalmology. These symposia have always been a combination of relevant clinical thought, based on outstanding knowledge, and current research. In 1996 this tradition was continued with the symposium ""Peril to the Nerve - Ophthalmology"" . From the latest discussions in the literature to provocative round tables and clinical controversy presentations, the participants discussed clinically useful topics in these fields. The panelists in the
