CHAPTER 10 SUCCESS OR FAILURE? A CRITICAL BUT OPTIMISTIC EVALUATION OF BIOPOLITICS

Sommario/riassunto

This volume describes (a) the present academic and institutional status of Biopolitics and (b) the wide range of research areas that have emerged within the field. The Introduction puts into perspective the major differences and similarities between Biopolitics and more traditional approaches to political science in terms of basic concepts, scope, research methodology, and the resulting implications for public policy. The next two chapters focus on the institutions and organizations that have significantly influenced the structure and direction of the ""movement." Chapter 4 describes how and w
