Sommario/riassunto	"This book is the most comprehensively global and critically sensitive synthesis of what we now know of the material and socio-cultural evolution of the so-called First Societies. Written by a distinguished architectural historian and theorist, this truly remarkable and indispensable study shows how the material culture of our forebears, from building to clothing, food, ritual and dance, was inextricably bound up with the mode of survival obtained in a particular place and time...It is a study that will surely become required reading for every student of material culture."-Kenneth Frampton
