WORK AND INNOVATION

Sommario/riassunto

Supported bilaterally by Sweden and Norway, the Scandinavian Action Research Development Program (ACRES - Action Research in Scandinavia) emphasized conceptualizing research questions and self-conscious writing processes for experienced action researchers. Participants came from Norway, Sweden, Finland, Holland, Great Britain, and the United States. A learning experiment in the tradition of Scandinavian industrial democracy, ACRES had both intellectual and organizational tensions common to action research projects. This book includes theoretical and historical overviews of action research
