Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 113-130) and index.
Nota di contenuto	The change in ceramic technology in EM I -- The clays and the fired fabrics -- The pottery shapes -- EM I surface treatments and decoration and their relation to fabrics, shapes, and methods of manufacture -- Comments and conclusions on the pottery -- The transformation of Cretan society.
Sommario/riassunto	This book focuses on economic and social changes, particularly during the opening phase of the Minoan civilization on the island of Crete. New developments in ceramics that reached Crete at the end of the Neolithic period greatly contributed to the creation of economic, technological, social, and religious advancements we call the Early Bronze Age. The arguments are two-fold: a detailed explanation of the ceramics we call Early Minoan I and the differences that set it apart from its predecessors, and an explanation of how these new and highly

superior containers changed the storage, transport,
