Note generali	Includes bibliographical references and index.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This edition of 'The Comedy of Errors' bases itself directly on the 1623 Folio text and provides helpful explanatory notes. The introduction argues that it was written for and performed at the Gray's Inn Christmas revels on 28 December 1594 and was among the first plays composed by Shakespeare.

Adams, Danny L. Balfour -- The corrupting influence of secrecy on national policy decisions / J. William Leonard.

Sommario/riassunto

Government secrecy (GS) is a significant social, political, and policy issue and often presents as a barrier to civic participation, public right-to-know, historical understanding, and institutional accountability. This volume examines GS in a variety of contexts, including comparative examination of government control of information, new definitions, categories, censorship, ethics, and secrecy's relationship with freedom of information and transparency. It investigates GS in terms of its current theoretical descriptions as power over and concealment of information (Bok 1983), a tampering of communications (Friedrich 1972), the compulsory withholding of knowledge, reinforced by the prospects of sanctions for disclosure (Shils), or Georg Simmels (1906) idea of secrecy creating the possibility of a second world. Following the introduction this book is divided into the following six sections: Government Secrecy: Theoretical Musings; Government Secrecy and the Media; Government Secrecy and Technology; Freedom of Information; Government Secrecy: Current Policy; and Ethics. Articles are sourced from around the world and include some from USA, Mexico, Africa, Israel and Britain.
