Sommario/riassunto	It is the aim of this book while clarifying doubts and misconceptions, to provide a thorough reappraisal of the intellectual and rich cultural heritage of Islam with regards to the principles and practice of medicine and its representation to the world in the language of today. In nine chapters a range of topics are discussed including: The Promotion of Medical Education and Health Services; Personal and Environmental Hygiene; Circumcision; Manners of Eating; Social and Mental Health; Curative Medicine; The Provision of Adequate and Potable Water; Magic, Witchcraft, Enchantments and Charms; Euthanasia; Suicide; The Rehabilitation of the Sick and the Needy; The Source of Human Creation; Sex Differentiation and Determination; Healing through Miracles; Magic and Soothsaying; HIV Infection and

AIDS; Abortion; Females in Medical Practice; and The Challenges of
Modem Medicine to Muslims.
