bystander. In FDR and the Jews, they draw upon many new primary sources to offer an intriguing portrait of a consummate politiciancompassionate but also pragmatic-struggling with opposing priorities under perilous conditions. For most of his presidency Roosevelt indeed did little to aid the imperiled Jews of Europe. He put domestic policy priorities ahead of helping Jews and deferred to others' fears of an anti-Semitic backlash. Yet he also acted decisively at times to rescue Jews, often withstanding contrary pressures from his advisers and the American public. Even Jewish citizens who petitioned the president could not agree on how best to aid their co-religionists abroad. Though his actions may seem inadequate in retrospect, the authors bring to light a concerned leader whose efforts on behalf of Jews were far greater than those of any other world figure. His moral position was tempered by the political realities of depression and war, a conflict all too familiar to American politicians in the twenty-first century.
