

1. Record Nr.	UNINA9910452634303321
Titolo	The circulation of knowledge between Britain, India and China [[electronic resource]] : the early-modern world to the twentieth century // edited by Bernard Lightman, Gordon McOuat and Larry Stewart
Pubbl/distr/stampa	Leiden ; ; Boston, : Brill, 2013
ISBN	90-04-25141-3
Descrizione fisica	1 online resource (361 p.)
Collana	History of science and medicine library, , 1872-0684 ; ; v. 36 Knowledge infrastructure and knowledge economy ; ; v. 3
Altri autori (Persone)	LightmanBernard V. <1950-> McOuatGordon StewartLarry <1946->
Disciplina	303.48/30903
Soggetti	Discoveries in science - History Communication in science - Europe - History Science - Great Britain - History Science - India - History Science - China - History Knowledge, Sociology of Enlightenment Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The spectacle of experiment : instruments of circulation, from Dumfries to Calcutta and back / Larry Stewart -- "Bungallee House set on fire by Galvanism" : natural and experimental philosophy as public science in a colonial metropolis (1794-1806) / Savithri Preetha Nair -- From Calcutta to London : James Dinwiddie's galvanic circuits / Jan Golinski -- Anthologizing the book of nature : the circulation of knowledge and the origins of the scientific journal in late Georgian Britain / Jonathan R. Topham -- Between Calcutta and Kew : the divergent circulation and production of hortus bengalensis and flora indica / Khyati Nagar -- Knowledge across borders : the early communication of evolution in

China / Yang Haiyan -- Circulating material objects : the international controversy over antiquities and fossils in twentieth-century China / Fa-ti Fan -- Going with the flow : Chinese geology, international scientific meetings and knowledge circulation / Grace Yen Shen -- How may we study science and the state in postcolonial India? / Jahnvi Phalkey -- A western scientist in an eastern context : J.B.S. Haldane's involvement in Indian science / Veena Rao -- Implications for history of science / Sundar Sarukkai.

Sommario/riassunto

In *The Circulation of Knowledge Between Britain, India and China*, twelve scholars examine how knowledge, things and people moved within, and between, the East and the West from the early modern period to the twentieth century. The collection starts by looking at the ways and means that knowledge circulated, first in Europe, but then beyond to India and China. It engages the knowledge and encounters of those Europeans as they moved across the globe. It participates in the attempt to open up more nuanced and balanced trajectories of colonial and post-colonial encounters. By focusing on exchange, translation, and resistance, the authors bring into the spotlight many 'bit-players' and things originally relegated to the margins in the development of late modern science. Contributors include Karen Smith, Larry Stewart, Savrithri Preetha Nair, Jan Golinski, Arun Bala, Jonathan Topham, Khyati Nagar, Yang Haiyan, Fa-ti Fan, Grace Yen Shen, Jahnvi Phalkey, Veena Rao, and Sundar Sarukkai.
