	Sommario/riassunto	"My father was born into war," begins this remarkable saga in Alisse Waterston's intimate ethnography, a story that is also twentieth century social history. This is an anthropologist's vivid account of her father's

journey across continents, countries, cultures, languages, generations--and wars. It is a daughter's moving portrait of a charming, funny, wounded and difficult man, his relationships with those he loved, and his most sacred of beliefs. And it is a scholar's reflection on the dramatic forces of history, the legacies of culture, the experience of a Jewish immigrant, and the enduring power of memory. This book is for Sociology and Anthropology courses in qualitative methods, ethnography, violence, migration, and ethnicity"--

Sommario/riassunto	This book constitutes the revised selected papers of the 12th International Symposium on Foundations and Practice of Security, FPS 2019, held in Toulouse, France, in November 2019. The 19 full papers and 9 short papers presented in this book were carefully reviewed and selected from 50 submissions. They cover a range of topics such as machine learning approaches; attack prevention and trustworthiness; and access control models and cryptography.
