A Natural Enemy -- Notes -- Bibliography -- Index -- Acknowledgments
Sommario/riassunto	The specter of Spain rarely figures in our discussions of the drama that is often regarded as the crowning achievement of the English literary Renaissance. Yet dramatists such as Thomas Kyd, Christopher Marlowe, and William Shakespeare are exactly contemporary with England's protracted conflict with the Spanish Empire, a traditional ally turned archetypical adversary. Were these playwrights really so mute with

respect to their nation's Spanish troubles? Or have we failed-for reasons cultural and institutional-to hear the Hispanophobic crosstalk that permeated the drama no less than England's other public discourses? Imagining an early modern public sphere in which dramatists cross pens with proto-imperialists, Protestant polemicists, recusant apologists, and a Machiavellian network of propagandists that included high government officials as well as journeyman printers, Eric Griffin uncovers the rhetorical strategies through which the Hispanophobic perspectives that shaped the so-called Black Legend of Spanish Cruelty were written into English cultural memory. At the same time, he demonstrates that the English were as ready to invoke Spain in the spirit of envious emulation as to demonize the Spanish other as an ethnic agent of intolerance and oppression. Interrogating the Whiggish orientation that has continued to view the English Renaissance through a haze of Anglo-American triumphalism, *English Renaissance Drama and the Specter of Spain* recovers the voices of key Spanish participants and the "Hispanized" Catholic resistance, revealing how England and Spain continued to draw upon shared traditions and cultural resources, even during the moments of their most storied confrontation.

2.	Record Nr.	UNISALENTO991002686199707536
	Autore	Gudeman, Alfred

Sommario/riassunto

In a series of essays devoted to key terms and ideas in Islam, Bravmann argues on the basis of pre-Islamic and early Islamic texts for an Arabian background to the rise of the religion. In pursuing a thorough philological examination of the evidence, Bravmann finds core values and ideas of Islam deeply embedded in ancient Arab linguistic expression. His work continues to provide a critical element in the debates about the emergence of Islam and cannot be ignored by anyone trying to assess the complex historiographical problems that surround the issue.
