Nota di contenuto	1. Introduction 2. The historical development and current scope of the European Patent Convention 3. Computer programs 4. Discoveries 5. Methods of medical treatment and diagnosis 6.
	Essentially biological processes for the production of plants and animals 7. Plant and animal varieties 8. Morality and 'ordre public' 9. Towards a coherent interpretation of the exclusions 10. Conclusion.

attention is given to those exclusions considered the most contentious (computer programmes, discoveries, medical treatments, life forms and agriculture) and those decisions which have been most influential in shaping the approaches by which the exclusions have been interpreted. The 'morality' exclusion and the interpretation of the exclusions are discussed critically and suggestions for coherent interpretation are made.
