

1. Record Nr.	UNINA9910452682703321
Autore	Hanson Ardis
Titolo	Mental health informatics [[electronic resource] /] / Ardis Hanson, Bruce Lubotsky Levin
Pubbl/distr/stampa	New York, : Oxford University Press, c2013
ISBN	1-283-85835-5 0-19-972033-9
Descrizione fisica	1 online resource (285 p.)
Altri autori (Persone)	LevinBruce Lubotsky
Disciplina	610.28/5
Soggetti	Medical informatics Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Informatics & public health -- Mental health -- Informatics and mental health -- Data and standards -- Management information systems -- Adoption & implementation of mental health information technology -- Legal & ethical issues in mental health informatics -- Taking research to practice -- Research, professional & educational competencies -- Types of data -- Information retrieval, interfaces, and strategies -- Selected mental health informatics databases -- Globalization of information -- Policy & practice.
Sommario/riassunto	Mental Health Informatics offers a comprehensive examination of contemporary issues in mental health that focuses on the innovative use of computers and other information technology in support of patient care, education, services delivery, and research in the field of mental health services. This text deals with resources, devices, and formalized methods for optimizing the storage, retrieval, and management of information for problem solving and decision-making in mental health. Mental health informatics is an interdisciplinary field based upon computer and information sciences, the cognitive
