Sommario/riassunto

Most non-Central Americans think of the narrow neck between Mexico and Colombia in terms of dramatic past revolutions and lauded peace agreements, or sensational problems of gang violence and natural disasters. In this volume, the contributors examine regional circumstances within frames of democratization and neoliberalism, as they shape lived experiences of transition. The authors—anthropologists and social scientists from the United States, Europe, and Central America—argue that the process of regions and nations "disappearing" (being erased from geopolitical notice) is integral to uphold
