

1. Record Nr.	UNINA9910452708603321
Autore	Ouboter Paul E
Titolo	Amphibians of Suriname [[electronic resource] /] / by Paul E. Ouboter, Rawien Jairam
Pubbl/distr/stampa	Leiden ; ; Boston, : Brill, 2012
ISBN	1-280-88211-5 9786613723420 90-04-20800-3
Descrizione fisica	1 online resource (388 p.)
Collana	Fauna of Suriname ; ; v. 1
Altri autori (Persone)	JairamRawien
Disciplina	597.8
Soggetti	Amphibians - Suriname Reptiles - Suriname Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Preliminary Material -- Introduction -- Geography of Suriname -- Methods -- Family Allophrynidae -- Family Aromobatidae -- Family Bufonidae -- Family Centrolenidae -- Family Ceratophryidae -- Family Dendrobatidae -- Family Eleutherodactylidae -- Family Hylidae -- Family Leiuperidae -- Family Leptodactylidae -- Family Microhylidae -- Family Pipidae -- Family Ranidae -- Family Strabomantidae -- Gymnophiona Family Caeciliidae -- Family Rhinatrematidae -- Species that may occur in Suriname, but not yet recorded for sure or known from one specimen collected in the far past only -- Zoogeography -- Conservation of Amphibians in Suriname -- Bibliography -- Appendix -- Subject Index -- Common Names Index -- Taxonomic Index.
Sommario/riassunto	Suriname has a long history of faunal inventories, with many of its species already described by Linnaeus. Despite that, the amphibians were only treated in a few papers in scientific journals. 'Amphibians of Suriname' is the first overview of our present knowledge of this interesting group for Suriname. The book presents short descriptions and data on the distribution and natural history of the 104 species now known for the country. Most species are illustrated by one or more photographs, and a distribution map is presented as well. Two new

species and two new subspecies of frogs are described for Suriname, and for several species a contribution to the taxonomic discussion is given.
