

1. Record Nr.	UNINA9910452766603321
Autore	Meade J. E (James Edward), <1907-1995., >
Titolo	A geometry of international trade // J.E. Meade
Pubbl/distr/stampa	Oxon [England] : , : Routledge, , 2012
ISBN	1-136-25902-3 0-203-10664-4 1-299-05607-5
Descrizione fisica	1 online resource (139 p.)
Collana	Routledge revivals
Disciplina	382
Soggetti	Balance of trade Commerce Geometry Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	First published in 1952 by George Allen & Unwin.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	A Geometry of International Trade; Copyright; A GEOMETRY OF INTERNATIONAL TRADE; Copyright; Preface; Contents; Chapter I. The Assumptions; Chapter II. The Consumption-Indifference Map and the Trade-Indifference Map; Chapter III. The Free Trade Equilibrium with a Zero Balance of Trade; Chapter IV. The Case of Constant Costs; Chapter V. The Case of Decreasing Costs; Chapter VI. The Representation of Commercial Policy with a Zero Balance of Trade; Chapter VII. A Balance-of-Trade Deficit and the Rate of Exchange in Conditions of Free Trade; Chapter VIII. The General Case Chapter IX. The Trade-Indifference Map and Economic Welfare
Sommario/riassunto	First published in 1952, this work is a systematic exposition of Professor Meade's geometric method, bringing together into a single coherent account the modern geometrical analysis of the theory of international trade. The work makes a number of original contributions, notably in the geometrical treatment of domestic production, of the balance of payments, and of import and export duties.
