Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Financial conspiracy -- New banks -- New bankers -- Insider lending -- The Unionists regain control -- Guerrillas -- The transformation of regional identity -- War and the administrative state.
Sommario/riassunto	This highly original work explores a previously unknown financial conspiracy at the start of the American Civil War. The book explains the reasons for the puzzling intensity of Missouri's guerrilla conflict, and for the state's anomalous experience in Reconstruction. In the broader history of the war, the book reveals for the first time the nature of military mobilization in the antebellum United States.

Sommario/riassunto	This volume centres on the historic relationship between Spain and the Jews in key moments of the 20th century and shows that it is impossible to understand and articulate what Spain was, is, and will be without taking into account both 'Muslim Spain' and 'Jewish Spain'. Its main argument revolves around the uses of the remote past in texts that depict the memory of complicated circumstances of Jewish life in Spain and in Northern Morocco during the Spanish Civil War, the Francoist repression in the postwar years, and World War II.
