Pubbl/distr/stampa	Ithaca, : Cornell University Press, 2013
ISBN	0-8014-6784-5 0-8014-6785-3
Descrizione fisica	1 online resource (312 p.)
Disciplina	306.875/3094309021
Soggetti	Brothers and sisters - Germany - History - To 1500 Nobility - Germany - History - To 1500 Electronic books. Germany Politics and government 843-1273
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The origins of twelfth-century princely lineages -- Forging the bonds between siblings : succession, inheritance and church careers -- Baby boomers : the first generation of the Staufen upper aristocracy -- Frederick Barbarossa and Henry the Lion : cousins in an age of brothers -- Cooperation, conflict and the rise of a new generation, ca. 1180-1210 -- From Bamberg to Budapest : four brothers and four sisters in the early 13th century -- The uncertain future of lineages : siblings during the reign of Frederick II.
Sommario/riassunto	In Princely Brothers and Sisters, Jonathan R. Lyon takes a fresh look at sibling networks and the role they played in shaping the practice of politics in the Middle Ages. Focusing on nine of the most prominent aristocratic families in the German kingdom during the Staufen period (1138-1250), Lyon finds that noblemen-and to a lesser extent, noblewomen-relied on the cooperation and support of their siblings as they sought to maintain or expand their power and influence within a competitive political environment. Consequently, sibling relationships proved crucial at key moments in shaping the political and territorial interests of many lords of the kingdom. Family historians have largely overlooked brothers and sisters in the political life of medieval

societies. As Lyon points out, however, siblings are the contemporaries whose lives normally overlap the longest. More so than parents and children, husbands and wives, or lords and vassals, brothers and sisters have the potential to develop relationships that span entire lifetimes. The longevity of some sibling bonds therefore created opportunities for noble brothers and sisters to collaborate in especially potent ways. As Lyon shows, cohesive networks of brothers and sisters proved remarkably effective at counterbalancing the authority of the Staufens kings and emperors. Well written and impeccably researched, *Princely Brothers and Sisters* is an important book not only for medieval German historians but also for the field of family history.
